

Press Release

Come and visit us at Embedded World 2012 - 28th February to 1st Mars 2012

Paris, France – 19th January 2012

Beanair will be present at the Embedded World 2012 trade fair, Nürnberg, Germany from 28th February – 1st march 2012.

During this trade fair Beanair will present its latest products and associated services:

- ✓ **BeanDevice® SUN-TH:** A wireless sensor integrating four measurement technologies (light, temperature, humidity and dew point) in a small casing.
- ✓ **OneSense® Energy:** A high grade Versatile and affordable energy performance monitoring and management solution.
- ✓ **BeanDevice AX-3DS:** A new generation of wireless MEMS accelerometer with **SSD** (Smart Shock Detection) technology.
- ✓ **EOSSY (Experts Offer for Safety Systems):** The EOSSY consortium offers expertise in safety systems combining the strengths of innovative French SMEs together with academic partners in order match your needs and propose you safe, affordable and innovative solutions.

Come and visit us on our Stand 544c - Hall 4 (French Pavilion promoted by UBIFRANCE).

BeanAir®, a French manufacturer and designer of smart and rugged Wireless Sensor Networks (WSN) dedicated to industrial machine monitoring, embedded measurement, structural engineering, energy management solution, isolated sites & process industry. BeanAir® provides wireless sensors for both dynamic measurement (vibration, shock and deformation) as well as static measurement (temperature, humidity, tilt, binary and analog measurement). Its wireless technology has a very high availability rate in harsh environments.
